

FALL CONVOCATION

MOORES OPERA HOUSE

AUGUST 30, 2018

UNIVERSITY of **HOUSTON** | THE HONORS COLLEGE

FALL CONVOCATION

MOORES OPERA HOUSE • UNIVERSITY OF HOUSTON

KEYNOTE SPEAKER: JOHN L. KING ('92)

John King is Ernst & Young's Assurance Managing Partner for the Southwest Region, which comprises 12 offices across nine states. Ernst & Young is a leading global professional services firm with 250,000 people and \$31 billion in revenues. Mr. King's career has primarily focused on working with Fortune 500 companies across a range of industries, with a particular focus in the energy sector.

Mr. King grew up in Kansas City and attended the University of Houston on a National Merit Scholarship. He was a member of the Honors College, and he graduated Summa Cum Laude with a Bachelor of Business Administration degree in accounting in 1992.

Mr. King is president of the University of Houston's Honors College Advisory Board and vice president of the Bauer College of Business Foundation Board. He is also a member of the Board of Visitors and the Bauer College Board. In addition, he and his wife, Julie, are active in charitable, philanthropic, and educational activities and organizations throughout the city of Houston.

FALL CONVOCATION

MOORES OPERA HOUSE • UNIVERSITY OF HOUSTON

WELCOME

William Monroe
Dean

Renu Khator
President, University of Houston
Chancellor, University of Houston System

KEYNOTE

John L. King ('92)
Regional Assurance Managing Partner,
Ernst & Young LLP
President, Honors College Advisory Board
Vice President, Bauer Foundation Board
UH Board of Visitors
Bauer College Board

RECOGNITIONS

William Monroe
Dean

THE HONORS
COLLEGE

Dear Students, Parents, Alumni, Colleagues, and Friends,

As we have for forty years, the Honors College is calling together the University of Houston community for the Fall Convocation. The Harvey floods preempted the 2017 event, taking a toll on our campus and community. UH students and faculty rose to the challenge through the UH CARES initiative, which resulted in over 1,000 hours of crucial cleanup work by more than 180 students, staff, and faculty.

This kind of engagement reflects the core values of the Honors College and the University of Houston as we strive to be a vital part of the city. The city of Houston plays a fundamental role in the education of UH students and alumni, and we want to be distinguished by our collaboration with Houston neighbors. We want the insights developed in the lecture hall and the seminar room to be enhanced by service locally, with partners such as KIPP Intrepid and Cuney Homes, and abroad in places like Honduras and Jordan.

Curricular programs are flourishing as well. In the past five years, participation in Honors College minors—Leadership Studies, Energy & Sustainability, Medicine & Society, *Phronesis*, and Creative Work—has increased by 75%. Participation in undergraduate research, already impressive, grew by nearly 30%, and the number of major award finalists and recipients more than tripled. One notable example: UH students won six Fulbright scholarships in spring 2018, more than in the previous five years combined.

We invite the class of 2022 to join this legacy of excellence. Your engagement in the lecture hall, the laboratory, the seminar room, and beyond—from college to career—will reflect the confidence, courage, and readiness that are the hallmarks of our University. Your success here will last a lifetime.

Go, Coogs!

A handwritten signature in black ink that reads 'Bill'.

SOCIETY OF FELLOWS

The designation "Fellow of The Honors College" recognizes University faculty and staff, as well as friends of the College, for their contributions to Honors education. A Fellow may assist the College in many ways, including serving on senior honors thesis committees, teaching Honors courses, and providing counsel to Honors students and the College.

HONORS EDUCATION

AT THE UNIVERSITY OF HOUSTON

1958-2018

THE HONORS COLLEGE

OUTSTANDING FIRST YEAR STUDENTS

Chosen from a talented, motivated, and hard-working entering class, Outstanding First Year Students represent “the best of the best.” Their grade point averages are high, but they distinguish themselves by more than just the ability to make As, and each one has been nominated for this recognition by the Honors College teaching faculty. The recipients represent a diverse group of disciplines and backgrounds, and their achievements symbolize the fine work of the entire first-year class.

2018 SCHOLARSHIPS

2018 TIER ONE SCHOLARSHIPS

The UH Tier One Scholarships were established by President Renu Khator to attract highly qualified students to the University of Houston. The Tier One class for fall 2018 consists of 15 first-year students, who will be receiving approximately \$302,250 in scholarship awards.

2018 TERRY FOUNDATION SCHOLARSHIPS

A Houston-based foundation providing scholarships to outstanding Texas residents, the Terry Foundation supports academically talented students with financial need and a record of leadership. This fall, 21 new Terry Scholars (comprised of 13 freshmen and 8 transfer students) will be inducted into the University of Houston chapter. During the 2018-19 academic year, 105 scholars (including incoming students) will receive approximately \$2.2 million from the Terry Foundation to fund their undergraduate education. Since its inception at the University of Houston in 2004, the Terry Foundation has provided over \$19.5 million in scholarship funds.

2018 SCHOLARSHIPS

2018 NATIONAL MERIT SCHOLARSHIPS

The University of Houston awards scholarship support covering the entire cost of tuition and required fees to National Merit Scholarship finalists who select the University of Houston as their first-choice institution in accordance with the rules and deadlines established by the National Merit Scholarship Corporation. This year, 17 new National Merit Scholars join the University of Houston's class of 2022 and will receive approximately \$187,000 in scholarship awards.

2018 PROVOST SERVICE LEARNING SCHOLARSHIPS

Academically excellent incoming students who exhibit a commitment to service receive the Provost Service Learning Scholarship (PSLS). Because the scholarship is awarded to students accepted to the Bonner Leaders service learning program, this scholarship supports service-motivated students and the University's efforts to serve and engage with the community. The Bonner Leaders work with nearby KIPP public charter and HISD schools to deliver several educational preparation programs. They also provide meals for those in need through the Campus Kitchen UH program to advance the mission of alleviating the effects of socioeconomic inequalities in Houston. As of the 2018-2019 academic year, 39 Bonner students will receive \$61,000 in PSLs funds.

HONORS COLLEGE GIVING OPPORTUNITIES

FACULTY DEVELOPMENT

Faculty are the lifeblood of an Honors education. Dedicated faculty enrich the learning experience in the classroom and make possible the diverse offering of co-curricular engagement programs within the College. Honors College faculty mentor students in undergraduate research, guide students in their pursuit of major awards, advise as students pursue post-baccalaureate endeavors, and lead service and study abroad trips. The Honors College prioritizes giving that is directed to the recruitment, retention, and development of faculty who are excellent teachers and who go beyond the classroom to create educational opportunities for students. Gifts to faculty development provide Faculty Engagement Awards that recognize and incentivize outstanding faculty for their contributions to the College, while also supporting faculty fellowships and professorships that allow the Honors College to recruit the best faculty across the country.

UNDERGRADUATE RESEARCH

The Office of Undergraduate Research provides mentored research opportunities for undergraduates of all majors and departments across campus. Participation in undergraduate research enables undergraduates to make a difference in their fields and form strong mentorships with faculty members in their discipline. Through the Office of Undergraduate Research, the Honors College offers several programs: Houston Early Research Experience (HERE), a program providing an early introduction to undergraduate research; Summer Undergraduate Research Fellowships (SURF) and the Provost Undergraduate Research Scholarships (PURS), two competitive programs that allow for one-to-one project mentorship; and a Senior Honors Thesis program. Currently, the Office of Undergraduate Research receives many more competitive applications than it is able to fund, and additional support is needed to bring students' projects to fruition. Undergraduate Research Day, an annual showcase of all undergraduate research projects, will occur on Thursday, October 18, 2018, in the Honors College. Support for Undergraduate Research provides scholarships for students who participate and stipends for the faculty who serve as mentors.

ENERGY AND SUSTAINABILITY PROGRAM AND MINOR

Designed to provide students from all majors with an interdisciplinary education, the minor in Energy and Sustainability offers a problem-based curriculum through which students acquire a broad, yet detailed understanding of existing, transitional, and alternative energy resources, as well as sustainable resource use. The curriculum features the city of Houston, the world's energy capital, and creates opportunities for students to work with real challenges, real cases, and real experts from the community and the University. Support for the Energy and Sustainability program provides scholarships for participating students.

STUDY ABROAD/STUDY AWAY

Experiential learning has always been at the heart of an Honors education. Over the last several years, the College has worked diligently to expand these opportunities for students. Unlike a traditional semester-long study abroad trip, the Study Abroad/Study Away program in the Honors College provides students with short-term, high impact experiences that expand the classroom and bring a student's education to life. In recent years, Honors College students have completed in-depth research in the Galapagos, studied the Great Books in Israel, served on medical missions in Haiti and Honduras, worked with organizations serving refugees in Greece, and observed the impacts of energy and sustainability in Peru. Other destinations have included France, Scotland, Russia, Ireland, Italy, Mexico, and the Netherlands. Support for the Study Abroad/Study Away program ensures that each student who has a desire to learn abroad has the opportunity to do so. With philanthropic support for this program, the Honors College provides student travel scholarships and awards for faculty who go above and beyond to bring their classroom to life beyond our Houston community.

SERVICE LEARNING

The Honors College Service Learning program brings community members, faculty, and students together to address challenges affecting quality of life in the city and region. A group of premier service scholars, the Bonner Leaders, are excellent students who dedicate at least 270 hours each year to educationally meaningful, anti-poverty service for each of their four years at the University of Houston. The Bonner Leaders program is the largest of its kind in the United States. Bonner Leaders operate an award-winning food and nutrition program, tutor at-risk students in neighborhood high schools and middle schools, run a community-health program, and work to build capacity at Urban Harvest, Habitat for Humanity, Workshop Houston, and other partners. Gifts to the Service Learning program provide scholarship support for participating students, as well as the necessary program funds to continue serving the Houston community and beyond.

For more information about making a gift in support of the programs above, or others within the Honors College, please contact Hannah Barker, Director of Development, at 713.743.3220 or hmbarker@central.uh.edu.

The Great Conversation

Save the Date

The 27th Annual Great Conversation
Saturday, March 30th, 2019

In the University of Houston Fertitta Center

Conversation is the foundation of an Honors College education. Please join us as we engage in thoughtful dialogue on table topics in literature, religion, the arts, public policy, history, education, and the sciences. Proceeds from this event support scholarships for Honors College students.

In almost thirty years, this is the first time in history that the gala will be held on campus. This will be the inaugural event of its kind in the Fertitta Center, and we look forward to showing our alumni and friends just one of the many ways our campus has grown. For more information or to reserve your seat, please visit thegreatconversationhouston.com.

OFFICE OF UNDERGRADUATE RESEARCH

PROVOST'S UNDERGRADUATE RESEARCH SCHOLARS

The Provost's Undergraduate Research Scholarship program provides talented juniors and seniors with the opportunity to participate in a semester-long research project under the direction of a University of Houston faculty mentor.

PHARIS FELLOWS

The inaugural class of Pharis Fellows worked together to create data models for understanding how individual health outcomes are embedded in social contexts using modeling and graph theory. The fellowships are in memorial of George "Trey" Pharis, a beloved colleague at DASH (Data Analytics in Student Hands), and they allowed five undergraduates to conduct full-time research throughout the summer.

MELLON RESEARCH SCHOLARS

Supported by a \$500,000 grant from the Andrew W. Mellon Foundation, a total of 60 undergraduate students will receive financial support to participate in faculty-mentored research activities between spring 2018 and spring 2021. This includes a two-week graduate school boot camp, a 10-week full-time summer research experience, and a Senior Honors Thesis or intensive independent research project. The following students were selected to participate in the inaugural class of Mellon Research Scholars.

HOUSTON SCHOLARS

Supported by the Office of the Provost and the Honors College, the Houston Scholars program seeks to empower students to be scholars in their fields, ethical leaders, and active contributors to society. Through faculty mentoring, the development of a research proposal related to future academic and professional goals, and attendance at a discussion series led by University of Houston faculty across campus, Houston Scholars are encouraged to engage in self-reflection, critical thinking, passionate inquiry, and the application of theory and research to real-world problems. Proposals may include opportunities to conduct research, undertake a service project or internship, attend or present at a professional conference, or do research or study abroad. Houston Scholars defend their proposals to a faculty committee for potential funding.

HOUSTON EARLY RESEARCH EXPERIENCE (HERE)

The Houston Early Research Experience (HERE) Program recognizes freshman and sophomore students who excel academically and are engaged in the campus and local community. This two-week summer seminar series engages students from all majors in various research methodologies through faculty-led small group discussions and research presentations. Forty-eight students participated in the 2018 HERE Program, which focused on sustainability in the Houston metropolitan area. A field trip to the Houston Ship Channel complemented the research focused curriculum. The HERE Program concluded with student-developed presentations.

PHI BETA KAPPA

Since its founding in 1776, Phi Beta Kappa, the nation's oldest and most prestigious honor society, has celebrated excellence in the liberal arts and sciences and championed freedom of thought. PBK recognizes the best and brightest liberal arts and sciences undergraduates and grants lifelong membership through a highly competitive selection process. The Mu of Texas chapter, PBK's 284th, was installed on March 4, 2016, at the University of Houston.

STUDY ABROAD AND STUDY AWAY

Honors College students often study abroad or study away to enhance their college experience. Each year, Honors College faculty and staff plan several journeys and support student travel to regional and national conferences and conventions.

ARTISTS AND THEIR REGIONS

Donald Barthelme (Courtesy of Special Collections, University of Houston Libraries)

Artists & Their Regions is a capstone course of the Creative Work minor. The class involves an in-depth study of one of the minor's signature concerns: the role of place and space in sparking and shaping creativity. The theme of the spring 2018 version of the class was "Barthelme's Houston." Donald Barthelme (1931-89) is arguably the most significant writer our city has produced. His witty, Surrealistic fictions helped transform the American short story. Both Houston and the University of Houston—where he was a student in the 1950s and a professor in the 1980s—were formative influences on him. Enriched by visits to local museums and landmarks, a collaboration with an area avant-garde theater company, and research at UH Libraries' Special Collections, the class constructed a multi-faceted portrait of the artist as young Houstonian. Reading fiction was just one means by which Barthelme developed his extraordinary

aesthetic, so students also experienced the kind of visual art, cinema, music, poetry, and architecture he appreciated. They responded to Barthelme's work not only through close reading and critical writing, but also through creative project in a variety of media. "All my life," Barthelme once said, "I've been interested in ... dazzling the mind. Your mind is constantly capable of surprising you if you work at it." Creative Work students did indeed work at it, with Barthelme as their guide.

THE BONNER LEADERS PROGRAM

The Bonner Leaders is a service learning program housed in the Honors College. The Bonners develop and run service projects that focus on combatting the effects of poverty that impact food insecurity, education, and health in the Houston community. Each Bonner engages in at least 10 hours of service weekly. Through their work, Bonners learn critical skills, including leadership, teamwork, project planning, and time management. The skills they acquire as a Bonner prepare them for real-world challenges that await them post-graduation.

SAN CRISTOBAL, GALÁPAGOS ISLANDS, ECUADOR

Students prepared for this grand adventure by taking the spring 2018 biology class “GalapaGO Research Based Learning Abroad,” and many students also independently earned SCUBA certifications. The students spent three weeks on San Cristobal Island rotating through various research projects associated with Universidad San Francisco de Quito’s Galápagos Island Research Center. At USFQ, students had the opportunity to work with researchers that tagged sea turtles and surveyed the local turtle populations, looked for petrel nests, which are an important sea bird in the Galápagos, and learn how researchers used drones to find these nests. The students also analyzed water quality from various sources on the island and helped researchers tag and study movements of a local lizard population. Finally, they studied how microplastics impacted one of the few natural ecosystems on the planet. This was done by trawling for plastic in the water, looking for plastic on the beach, and locating the original source of plastic pollution.

ISRAEL/GREECE

For 25 years, the Honors College has hosted a study abroad excursion to the lands of antiquity. This year, students, faculty, staff, alumni, and “friends of the College” explored the cultural and archaeological sites of the ancient Mediterranean Basin. Their itinerary began in Greece, where they visited the Acropolis, Mycenae, and the temple of the healing god Asclepius in Epidauros. Then, they journeyed through Israel, from Jericho—one of the world’s oldest continuously inhabited sites, to Jerusalem—holy city to three faiths. There, they walked in the steps of King Saul (ca. 1000 BCE) and Jesus of Nazareth. The following travelers comprised the 2018 cohort:

ITALY

On their 10-day excursion to Italy, Honors Faculty Dutin Gish, Marina Trninic, and Doug Erwing led a group of 24 students to Rome, Florence, Siena, and San Gimignano. The trip included on-site study and discussion of major historical, archaeological, and cultural sites, as well as visits to major museums, churches, and galleries, and in-depth urban explorations of the ancient Roman Forum, the Renaissance splendors of Florence, and the wonders of the Vatican. Students learned about and experienced first-hand the cuisine, history, art, and architecture of Italian culture – from antiquity through modernity. During this trip, students visited treasured places (UNESCO World Heritage sites) and saw magnificent artworks associated with the intellectual and artistic legacy of the Mediterranean and European civilizations. They also sampled gelati near the Pantheon, climbed 463 steps into Brunelleschi’s famous Duomo, contemplated Raphael’s “School of Athens” and Michelangelo’s Sistine Chapel, followed the path of Cicero and Caesar through ancient Rome’s monumental ruins, and enjoyed Italian cappuccinos, pasta, and pastries!

MODEL ARAB LEAGUE

Since 1988, the Honors College has participated in the national Model Arab League (MAL) conference, held for three days in Washington, D.C., each spring. The league offers students an excellent opportunity to develop leadership skills and to learn about the social, economic, cultural, and political issues facing leaders of the Arab world. Participation in MAL is valuable to students of all academic majors and nationalities as they gain valuable leadership training through public speaking and discussion, writing and editing, interpersonal relations, and cross-cultural dialogue. Delegates come away with practiced skills that will serve them well in their future endeavors. This past spring, the following delegates represented the Honors College at the University of Houston:

STUDENTS

MODEL UNITED NATIONS

Model United Nations (MUN) is a program designated to educate students of all ages about becoming aware of current events and international relations, as well as being open minded and respectful toward different cultures around the world. Model UN participants will gain a deeper understanding and appreciation of how different countries cooperate with one another in order to address global issues such as eliminating famine, protecting human rights, providing basic necessities of life, preventing or ending armed conflicts, and many others. This past fall, the following delegates represented the Honors College at the University of Houston:

MODEL G20

Model G20 (MG20) is an innovative program designed to fully simulate a G20 Leaders' Summit. Recognizing the G20's influence in shaping today's world, we seek to prepare future leaders to build a strong, sustainable, balanced, and inclusive global economy. MG20 helps students develop skills in multilateral negotiations, public speaking, team building strategy, and diplomacy. A closer look at the inner workings and agenda of the G20 provides participants with a better understanding of the dynamics of international affairs, including such key issues as economic growth, job creation, migration, refugees, trade agreements, financial regulation, development, climate change, and others. This past fall, the following delegates represented the Honors College at the University of Houston:

THE SMITHSONIAN, WASHINGTON, D.C.

In the summer of 2018, ten Honors College students spent a month immersed in the world-class Smithsonian museums, learning from experts, conducting research to be presented at Undergraduate Research Day, and experiencing all that Washington, D.C. has to offer.

STUDENTS

Baiyinah Abdullah — National Zoo and Conservation Biology Institute

Ari Economon — Smithsonian Science Education Center

Kian Ebrahim-zadeh — National Museum of Natural History

Aidan Farmayan — National Museum of African Art

Sarah Hammond — National Museum of Natural History

Thao Nguyen — National Zoo and Conservation Biology Institute

Pranav Rao — National Museum of African Art

Allison Sullivan — Smithsonian Tropical Research Institute

Michelle Tran — Office of Fellowships and Internships

Leslie Zuniga — National Zoo and Conservation Biology Institute

TERRY SCHOLARS STUDY ABROAD

Since 2015, a total of 74 Terry Scholars have received \$705,000 from the Terry Foundation to fund their study abroad experiences. In 2018, the following eight Terry Scholars participated in study abroad:

STUDENTS

Katherine Adkison (Greece)

Skyeler Aguado (Spain)

Ana Garcia (Greece)

Bao Hoang (Spain)

Ya Li (China)

Truong Nguyen (Galápagos)

Keilly Trujillo (Costa Rica)

Ximena Valencia (Italy)

INDIVIDUAL STUDY ABROAD TRIPS

Sofia Ahmed — Fulbright English Teaching Assistantship Grant to Taiwan

Yusuf Bavi — Critical Language Scholarship to Morocco

Saman Essa — Critical Language Scholarship to Oman

Megan Goh — Fulbright Study/Research Grant to Germany

Maria Graves — Boren Scholarship to South Korea

Nour Haikal — Humanity in Action Fellowship to Copenhagen

Taylor Hedtke — DAAD RISE Scholarship to Germany

Carolann Madden — Fulbright National University of Ireland Galway Award for Archival Research

Reed Masek — DAAD RISE Scholarship to Germany

Andy Neilson — Critical Language Scholarship to China

Sofia Ruiz — Fulbright English Teaching Assistantship Grant to Spain

Bianca Salinas — Fulbright Study/Research Grant to France

Khalid Sheikh — Fulbright English Teaching Assistantship Grant to Latvia

Madeline Styskal — Fulbright English Teaching Assistantship Grant to Russia

HONORS COLLEGE ORGANIZATIONS

BLEACHER CREATURES

Bleacher Creatures is the official spirit group of the Honors College, offering all Honors students the opportunity to “paint up and git rowdy!” at Cougar home games.

CLUB THEATER

Club Theater is a student acted, directed, produced, and written theater troupe that produces a series of short plays every semester showcasing the theatrical talent of Honors students. Club Theater welcomes individuals with all levels of experience and interest in all aspects of theater.

HONORS ADVOCATES

Honors Advocates is a volunteer organization that recruits and orients new students to the University and the Honors community. Some advocates also serve as advisors and counselors with the Honors staff during summer orientation sessions and the Honors Retreat.

HONORS AMBASSADORS

Ambassadors are a select group of Honors College students who represent the College to both internal and external constituencies, including prospective students, alumni, and donors.

HONORS COLLEGE MENTORSHIP PROGRAM

The Honors College Mentorship Program provides guidance and support to incoming students through peer mentoring. Incoming Honors students are encouraged to meet with student mentors regularly as well as participate in a variety of Honors community building events to ensure a successful transition to the University of Houston.

OMICRON DELTA KAPPA

THE NATIONAL LEADERSHIP HONOR SOCIETY

The purpose of ODK is to recognize University of Houston students who have demonstrated exceptional leadership and scholarship. ODK acknowledges and encourages achievement in scholarship, athletics, campus community service, social and religious activities, campus government, journalism, speech, mass media, and the creative and performing arts.

SPEECH AND DEBATE

The Speech and Debate Program at Houston includes competitive debate and individual events teams, a public debate series, and an exciting cluster of courses. The program draws on rhetorical theory and requires research into complex matters of public policy such as energy, the environment, and health care. SDP at Houston is open to all students, from novices to seasoned competitors.

STUDENT GOVERNING BOARD

SGB functions as a liaison between the Honors faculty, administration, and students, and as a planning body for the various social activities for the college.

TERRY SCHOLARS

The Terry Scholars chapter promotes student success both inside and outside the classroom, providing its members an academic support network and sponsoring monthly community service opportunities open to all University of Houston students.

EZEKIEL W. CULLEN
BUILDING

GRAND CHALLENGES FORUM SCHEDULE

2018/2019 THEME: LEAD IN

The Grand Challenges Forum encourages students to think critically, discuss openly, and learn unequivocally. The Honors College welcomes a diverse group of distinguished scholars, authors, activists, and artists in an effort to further the University's commitment to intellectual rigor, critical thinking, and scholarly excellence. The Grand Challenges Forum offers students a time to hear a wide range of lectures dedicated to a common theme, which for the 2018-19 academic year is "Lead In."

Hosted by the Honors College in partnership with the University of Houston Alumni Association and the C. T. Bauer College of Business, the Grand Challenges Forum is open to the entire UH Community. In fall 2018, the lectures will be held on Fridays from 1 to 2 p.m. in 100D Cemo Hall. For more information, please visit: thehonorscollege.com/gcf.

IN MEMORIAM

MICHAEL ANDREW LITTLE

(1969 – 2018)

On July 27, the Honors College lost Andy Little, a cherished member of the UH family. He is survived by a son, Jacob, a political science major, a *Phronesis* minor, and an outstanding member of the Honors College. Professor Little also leaves a vast library of well-loved and well-worn books and a legacy of devoted students, colleagues, and alumni for whom he had been a friend, mentor, and advisor for many years.

A 1993 Honors College graduate with majors in political science and English, Professor Little did his graduate work in political philosophy at Fordham University in New York City. He returned to the University of Houston and has been teaching and advising in the

Department of Political Science and the Honors College since 1997. A ravenous reader always ready for a discussion of books and ideas, Andy cast himself in the mold of his mentor, Ross Lence, the legendary political theorist, teacher, and advisor.

Professor Little taught in the Human Situation sequence, as well as courses in ancient and medieval philosophy and American political thought. He helped lead students on trips to Turkey, Israel, and Greece and created a Shakespeare Reading Group that was working through all 37 of the Bard's plays, one each month. Andy hosted numerous book clubs and dinner parties, on campus or in his home, during which he would invoke Thucydides, Plato, Aristotle, Hobbes—and William Faulkner—to rapt audiences who delighted in his prismatic imagination. He saw himself as a goalie of the mind, keeping the intellectual game alive by blocking each seemingly unassailable shot.

Everyone who knew Professor Little will have a memory of special meals he prepared, conversations that ended in laughter, and provocative hallway discussions of books, movies, and music.
